develop sometimes from very trifling causes, and when and where you would least expect A boil, or abscess, burn, blister, wart, tumor, mole, or the simplest little pimple may be the beginning point of a malignant, frightful looking Cancerous Ulcer.

Apparently there is no difference between a Cancerous and Common Ulcer when they first make their appearance, and for this reason every ulcer, no matter how insignificant or harmless it may seem, and all slow healing sores should excite suspicion and cause alarm, particularly if any of your ancestors ever had Cancer, or you have good reason to think your blood is impure; for the sore, after all, is only the outgrowth, the external evidence of polluted blood, and nothing can check its progress until the cancer tainted, vitiated blood has been purified. All efforts to heal the ulcer by means of salves or other external remedies will result in failure, for such treatment can have no possible effect upon the deadly germs and morbid matter that form in the blood and are carried through the circulation to the sore.

#### SISTER DIED OF CANCER OF THE BREAST.

MOTHER, TWO AUNTS, AND ONLY A SMALL SORE CAME ON THE WOULD SCAB OVER, BUT NOT - INSIDE OF HIS LIP.

I had a Cancer on my left breast, which caused me great pain for three or four years. At times the mias were deep and shooting. The alocer discharged yellow and rather offensive matter. I had given up all hope, as the doctors gave me no relief.

My mother, two hants and an only sixtle of the large number of reinediles and the gave me something to put on the sore, saying if it did not care to would cut the sore out. I used his etred ided a blood partifier was what I needed. Any mother, and he gave me something to put on the sore, saying if it did not care to would cut the sore out. I used his etred ided a blood partifier was what I needed, and began to take S. S. The ulcer was artisised that I, too, would have been gone but for S. S. S. Ifeltsome better after the first bottle, and after using only seven bottles the place healed entirely my general health improved and I am as so not not care as the first bottle, and after using only seven bottles the place healed entirely my general health improved and I am as well now as ever and no signs of the Cancer since. I would urge all who are suffering from the disease to give S. S. S. a trial. Belton, Mo.

Miss James Casserl.

Connectors Ulcers can be verached only by a remedy that acts upon and through the

Cancerous Ulcers can be reached only by a remedy that acts upon and through the blood system, and this is just what S. S. S. does. It goes to the fountain head of the disease, and drives out the germ producing poisons which cause the ulcer, and purifies and builds up again the deteriorated blood. This is the only true and logical treatment for sores of this character.

By the use of S. S. S. the ulcer is supplied with pure, strong blood, which quickly allays the inflammation and forces out all the irritating poisons, and allows the sore to heal naturally and permanently. S. S. S. acts also as a tonic, and where the constitution has become debilitated and weakened, it restores vitality and strengthens the nervous system, and helps the appetite and digestion. S. S. S. contains no Mercury, Potash or other minerals, but is

guaranteed purely vegetable. Those having a chronic ulcer or sore of any kind that is slow in healing, whether located upon the body or internally, will receive medical advice and such special information Book on Cancer and Other Diseases of the Blood sent free. as they desire free of cost.
